**NOTICE OF DRAFT RESOLUTIONS
(Pursuant to PU Code § 311(g))**

Pursuant to Public Utilities Code § 399.8, directs Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas and Electric Company to collect monies from customers to fund investments in energy efficiency, renewable energy, and research, development and demonstration projects

A draft resolution of the Energy Division as Public Utilities (PU) Code § 399.8 requires the three major California investor owned electric utilities to assess a Public Goods Charge (PGC) to customers in order to fund certain public interest programs. It specifies that, starting January 1, 2002, \$425.5 million is to be provided to these programs each year until January 1, 2012. However, § 399.8 does not specify how much of this annual total is to be allocated among the utilities except for the Energy Efficiency (EE) programs. Opening comments are due on November 4, 2002 and reply comments are due on November 12, 2002. Both opening and reply comments are limited to five pages. Copies of the resolution can be obtained by contacting:

Accordingly we reduce the comment period for this resolution from 30 days to 28 days. Parties who wish to file comments on this resolution may do so no later than November 10, 2002.

10/16/02 A02-05-046 Southern California Edison Company (U 338-E),
Regarding the Future Disposition of the Mohave
Generating Station.

Summary: On October 11, 2002, Mark Joseph, attorney for the Coalition of California Utility Employees (CUE), met with Pres. Lynch in Tuba City, Arizona. Also present was Robert Kinosian, advisor to Pres. Lynch, Dan Dominguez, Business Manager of the Utility Workers Union of America (UWUA), Local 246, Bernardo Garcia, Region 5 Director of the UWUA, Marie Justice, President of United Mine Workers (UMW), Local 1620, District 22, and Mike Dalpaiz, International Executive Board Member, District 22, UMW Union. Joseph stated that there was no assurance that the water issue would be solved, so the Commission should not authorize hundreds of millions of dollars for retrofit of the Mohave plant, but that only a few million dollars that was needed to permit additional time for resolution of the water issue. Joseph also stated that it takes far fewer employees to operate a new gas-fired plant than to operate the existing plant, and a gas-fired plant eliminated all of the mining jobs, and that the plant was too large a baseload plant to realistically replace with renewable generation.

Summary: AUGMENTATION REQUIRED. On October 15, 2002, William Booth, counsel for the California Large Energy Consumers Association, attended an all-party meeting with Cmmr. Duque in San Francisco. Also present was Laura Krannawitter, advisor to Cmmr. Duque. Written material was used. Booth stated it is not possible to set a uniform state-wide indifference fee for the direct access (DA) customers. Booth stated that the fee must be differentiated by utility because the total portfolio method adopted in the proposed decision (PD) looks to both the utility generation assets and the Department of Water Resources contracts, and a uniform fee would require the use of one utility's generation assets to in effect subsidize the fee to be paid by a DA customers situated in another utility's service territory. Booth advocated a 'backcast' approach to establishment of the indifference fee. Booth stated that the PD's proposal to forecast a fee for one year in advance and then to perform a true-up would involve a great deal of modeling work. Booth urged the use of a simpler approach. Booth also explained that while the combination of exit fees are certain to exceed a 2.7 cent cap in 2003, that is not a surprise nor should be alarming.

10/17/02 A02-08-005 Pacific Gas and Electric Company, for an Order Approving the Settlement Agreement between Pacific Gas and Electric Company, Sierra Pacific Industries and the California Independent System Operator.

Summary: On October 11, 2002, Steve Linsey, supervisor, Office of Ratepayer Advocates (ORA), met with Steve Weissman, advisor to Cmmr. Wood, in San Francisco. Written material (attached to the notice) was used. Linsey explained ORA's opposition to the draft decision. Linsey explained that Pacific Gas and Electric Company (PG&E) had made no showing that damages stemming from the breach of contract claim of Sierra Pacific Industries would in fact be ratepayer liability. Linsey argued that recovery of 8 million in above-market costs associated with the resolution of the breach of contract claim should not approved until such time as PG&E made a showing that ratepayers would in fact bear those expenses.

10/17/02 A02-01-035 Southern California Edison Company (U 338-E), for an Order Approving Proposed Qualifying Facility Contract Amendments, Agreements and Certain Amendments thereof Executed after July 31, 2001; and Authorizing [Edison's] Recovery of Payments under the Proposed Contract Agreements and Amendments

Summary: On October 15, 2002, David Moore, Buying Manager of Watson Cogeneration Company (Watson), met with Cmmr. Peevey in San Francisco. Also present were Julie Fitch, advisor to Cmmr. Peevey, Steven L. Tuth of British Petroleum, State Government Affairs Group, and Michael Myers, outside counsel for Watson. Written material (attached to the notice) was used. Myers advised that Watson had filed a lawsuit against Southern California Edison Company (Edison) when Edison ceased paying its qualified facility (QF) supplier. Myers stated that many other QFs had filed similar lawsuits and that Edison settled most such lawsuits, through a series of standstill agreements. Moore said that, unlike most of the other standstill settlements, the Watson-Edison standstill agreement did not involve an amendment of the underlying Edison-Watson QF power contract. Watson noted that no one has challenged the Watson Amendment and asked if its approval could be expedited.

10/18/02 R02-01-011 Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060

Summary: On October 15, 2002, John Leslie, attorney for Callaway Golf Company (Callaway), met with Cmmr. Duque in San Francisco. Also present were Laura Krannawitter, advisor to Cmmr. Duque, and other attendees, listed on the attachment to the notice. Leslie stated that Callaway has been a direct access (DA) customer on the San Diego Gas & Electric Company system continuously from July 2000 to the present. Leslie noted that Callaway has never relied upon purchase from the Department of Water Resources (DWR). Leslie stated that Callaway supports the treatment of continuous DA customers that is recommended in the proposed decision and the alternates of Cmmr. Wood, Cmmr. Peevey and Pres. Lynch. Leslie indicated that continuous DA customers such as Callaway should be exempt from all DWR exit fees, including both bond-related costs and ongoing purchased power costs.
